OAHU RESIDENTIAL PROPERTY SALES RATE

Annual Unit Sales Rates Based on Prior 12 Months

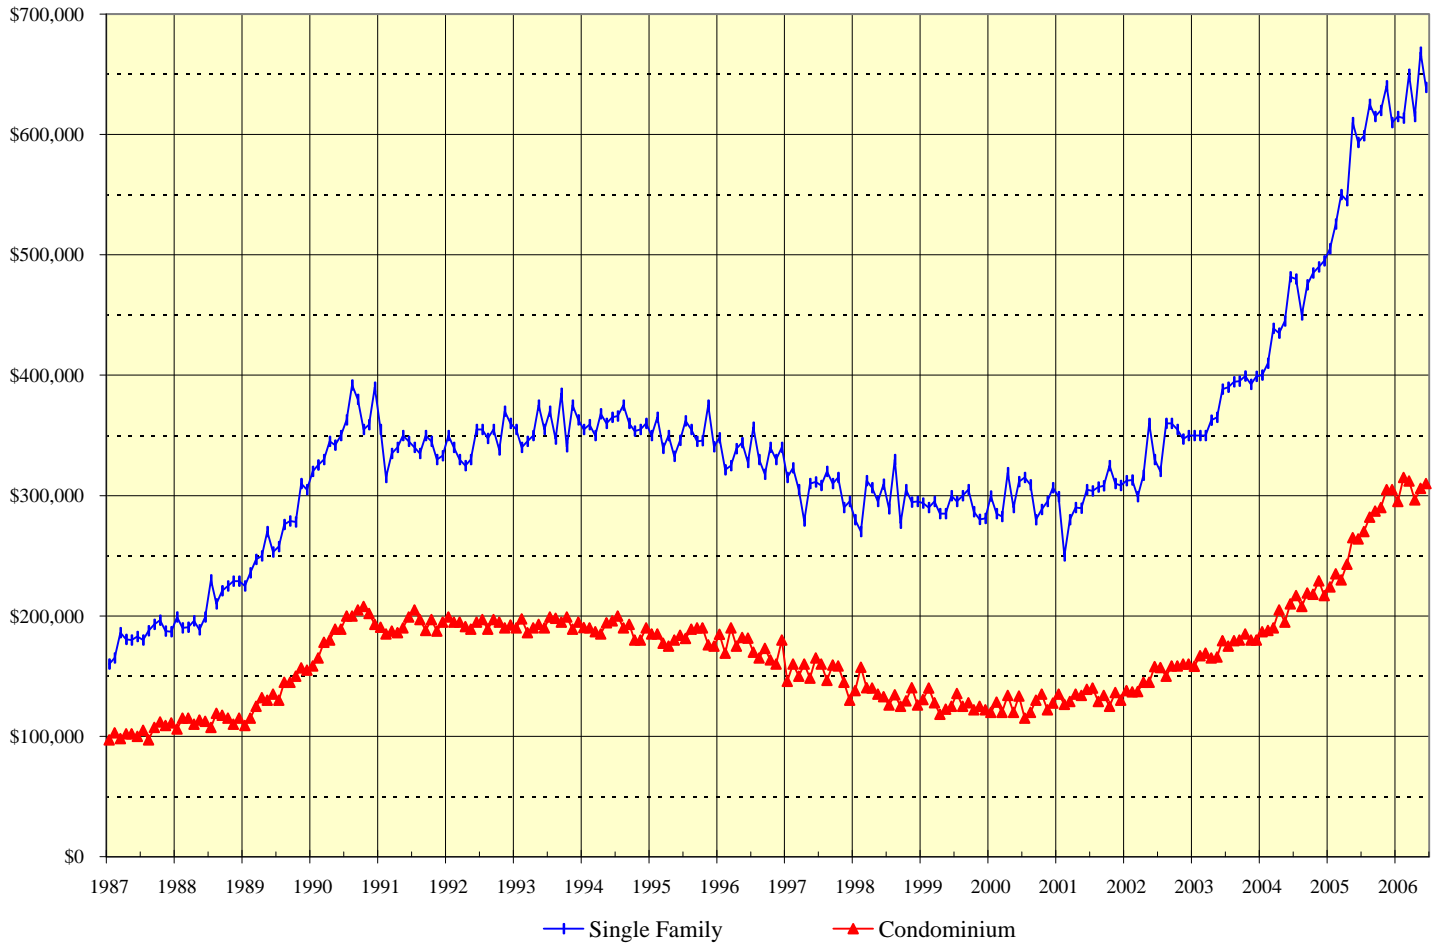

This chart is designed to more clearly show the general direction of the residential resales market on Oahu. It eliminates seasonal patterns that make monthly data difficult to read and interpret. Each point on this chart represents the total sales for the twelve months that end with the marked month. For example, the data points shown for December 2004 denote the total sales activity for the period January through December 2004. Similarly, the data points presented for June 2005 are the total sales for the 12-month period July 2004 through June 2005.

The points on this chart will change direction (i.e., go up or down) each month based on whether the newest month's sales activity is higher or lower than during the same month in the prior year. For example, if the sales reported for June 2005 are higher than those achieved in June 2004, the data points added to the chart for June 2005 will be higher than the May 2005 points.
